### A Message To The Trade ★ ★ ★

We are again cooperating with the government by streamlining this catalog, consequently it is again smaller than in prewar years.

We have all been working under difficulties — shortage of help and of materials — but the florist industry on the whole has overcome them successfully. We shall strive during the coming year — as we have in the past to fill all orders as nearly as possible, and when they are wanted. In view of the continuing scarcity of many items, however, we suggest you permit us to substitute if necessary with the nearest similar size or variety, and to so advise us when placing the order.

We will try to adhere to prices in this catalog, but if they are raised, trust you will understand that it has been unavoidable. In order that this war may be brought to a successful conclusion at the earliest date — keep buying more war bonds.

*Sidney H. Skidell*

### TERMS

All bills are subject to 2 per cent discount within 10 days from invoice date. Sixty days net. Sight draft, plus interest, thereafter.

Shipments are forwarded by best carrier, in our judgment at time of delivery, unless otherwise specified by customer.

First-class stock is carefully packed when shipment is made, and we hold good order receipt from the transportation company. Our responsibility ceases thereafter. If the stock reaches you in bad condition, notify agent and bring claim against the delivery company for damage by their negligence, as no allowance for this cause can or will be made by us.

All items in this list are offered subject to crop deliveries or failures, and being unsold on receipt of order, and other conditions beyond our control, and the prices are subject to change without notice.

**Bulbs**, whether shipped on arrival or placed in cold storage for later delivery, may be examined at time of arrival if desired, but no claims will be entertained at a later date.

As to all items other than **bulbs**, claims must be made within five days after receipt or they cannot be recognized.

Discounts for cash with order, except on cyclamen, grass seed, or special quotation. Flower seed orders up to \$25.00 — 5%. Over \$25.00 — 8%.

Vegetable Seeds — 2%. All other items — 3%.

New accounts desiring credit, please give three trade references.

We mail all flower seeds free to any point in the United States, at prices listed in this catalogue.

Note: Purchaser pays transportation on grass and vegetable seeds.

**Symbols used:** Light face type letters after flower seed names denote the following:

a—annual

c—climbers

gr—greenhouse plant

rp—rock plant perennial

b—biennial

f—cut flower variety, special for florists

p—perennial

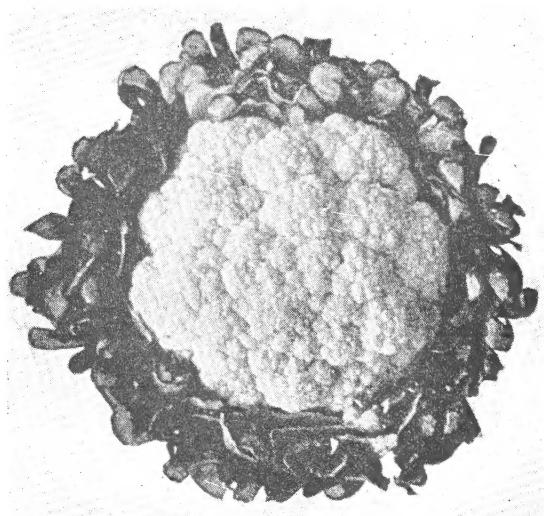

ra—rock plant annual

**Disclaimer.** While we, S. S. Skidelsky & Co., exercise the greatest care to have all seeds pure and reliable, and all bulbs, plants and cuttings true to name, we do not give any warranty, express or implied, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they must be returned at once and the money will be refunded. Our liability, in all instances, is limited to the purchase price of the seeds, bulbs, roots or plants.

## TUBEROUS ROOTED BEGONIAS

Finest Types. Huge Blooms. Superb Colors.

The finest types in most any color. Invaluable for corsages (Camellia-flowered), in the late spring and all summer. The ever popular pot plant from Mother's Day until frost.

## S.S.S. Select Strain.

## Double Camellia-Flowered.

Giant double Camellia-like flower.

**Double Frilled or Carnation (Fimbriata Plena).** Petals are frilled with serrated edges; flower when in full bloom resembles a carnation.

**Double Hanging Basket.** Known as the Pendula or Lloydii type. Hundreds of double flowers produced from a single bulb.

**Double Picotee.** The flowers are slightly smaller than the large Camellia type in some instances but of beautiful Camellia form, with two-toned combinations of color with a definitely contrasting edge.

**Double Rosebud.** Flowers of the most exquisite form, resembling perfect rosebuds, with beautiful, two-tone, pastel-shade coloring.

**Giant Singles.** This type produces largest flowers. Extensively used for bedding.

**Giant Single Crested (Cristata).** Single type slightly frilled. A coxcomb-like tuft or crest is borne on each petal.

**Giant Single Frilled (Crispa.)** Large profusely frilled and ruffled single flowers. Fine for bedding purposes.

# Carnations

## Certified Rooted Cuttings

### NEW INTRODUCTIONS

**NORTHLAND** (William Sim). Without exception, this is the finest White Carnation yet produced. Produces quality flowers in abundance. A large, well-formed, glistening White. Strong stem, exceptional keeper. Non-splitter. Sold under reasonable restrictions.

**UNCLE IKE** (Neuhauer & Troyer). A red sport of Charm, having the form and growth of its parent. We believe those who grow and like Charm will like "Uncle Ike." The color is Christmas Red. Long stem. Firm calyx. Good keeper. The buyer is bound by a gentleman's agreement not to sell plants or cuttings before December 31, 1946.

**WILLIAM SIM** (William Sim). To be distributed in December 1945. Many good growers who have seen "William Sim" growing, have already placed orders for it. Cardinal red in color. Larger and much fuller than any existing Red on the market. Very free blooming with no surplus growth. A long-stemmed variety that comes in flower very early and does not split. An exceptional keeper and shipper.

Above varieties \$20.00 per 100    \$150.00 per 1000  
(No orders for less than 100, please!)

**VICTORY RED** (Paul F. Brigham)—To be distributed in Dec. 1945. Cardinal red color, large full flower on stiff stem. Good producer. Does not split. Price to be established.

## SOIL TESTING KITS

### SIMPLEX SOIL TEST OUTFIT

#### Invaluable to the Successful Grower

Simple and complete. STOP needless losses on crops.

Determine what fertilizing chemicals any soils contain. Know what fertilizers are required and what treatment soils should receive to make them most productive.

Test your soil before spending money for fertilizers.

This exact knowledge will save more than the cost of the outfit in a short time.

#### The Simplex Outfit Includes Fifteen Chemical Tests:

Nitrates, Potash, Phosphoric Acid, Lime, Carbonates, Soil Acidity, Ammonia, Iron, Magnesium, Aluminum, Manganese, Sulphates, Chlorides, and Sodium. All are easy to make and accurate.

Detailed instruction book with color charts and interpretation of the test is included.

This complete and efficient set is only **22.00**.

### The Junior Simplex Soil Test Outfit

Just as efficient as the complete equipment except that its use is limited to tests for NITRATES, PHOSPHORIC ACID, POTASSIUM, and SOIL REACTION. Full directions and color charts accompany this outfit also.

## FERTILIZERS

### YOU CAN'T GET OUT WHAT YOU DON'T PUT IN

**Hyponex.** The concentrate for growing plants in chemical culture. An excellent and complete food when used as fertilizer. The new practical way to start seed is to sow it in sand, using Hyponex as a fertilizer. This way "damping-off" worries are eliminated. We know of no other plant food in any form which is more effective than Hyponex in assisting germination of seeds and helping seedlings and cuttings to grow vigorous and strong. (1 lb. makes 100 gallons). 10 lbs. **5.35,** 25 lbs. **10.00,** 100 lbs. **26.67.**

**Electra.** America's finest plant food. High organic. Fast, safe, complete. 100 lbs. **6.75.**

**Leaf Mold (Maplevale).** 100 lbs. **2.00.**

**Granulated Peat Moss.** **4.50** per bale, F.O.B. New York.

## WAKE UP YOUR SOIL

Use the stored-up power it has to produce bigger and better crops.

**Alkemi Soil Activator**—will release that sleeping energy and make it available to the plants.

**Alkemi Soil Activator**—is an innoculant holding billions of nitrogen-fixing, oxidizing and other beneficial bacteria, contained in dried decomposed organic and mineral matter as a base.

**Alkemi Soil Activator**—has no objectionable odor. Looks just like humus.

### WILL NOT AND CANNOT BURN THE MOST TENDER ROOTS.

Reduce fertilizing costs and enrich the food value of your soil. For better plants and quicker growth, add ALKEMI SOIL ACTIVATOR to your potting soil or for transplanting. When sowing seed, spread 1 pound through 50 feet of trench. Apply one pound to 200 square ft. of bench area.

## VITA PLANT BANDS

### WHY YOU GET BETTER RESULTS!

**EXCLUSIVE!** The new Vita Bands are the only ones on the market scientifically treated with nutrients to stimulate rapid, well-balanced plant growth.

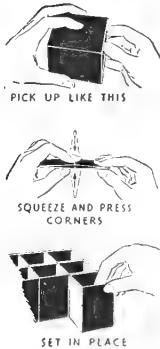

**QUICK!** Just set it up as you pick it up. A pinch — there it is. No locks, no slots, no wetting, no prying open.

**PROTECTION!** Eliminates dangers of quick-drying days. Retains the moisture instead of drawing it off like a blotter.

**EFFICIENT!** Reduces frequency of watering about 50%. Maintains optimum moisture conditions. Virtually eliminates need of chemical feeding.

**THRIFTY!** No breakage, no waste. A thousand bands bought means a thousand bands in use.

**ECONOMICAL!** Look at the price schedule below. It speaks for itself.

No. 2 holds 1 doz. 2" bands **26.50** per 1000  
Units of 100 only.

**Neponset Flat Inserts.** Now you can sub-irrigate flats by using these fibre trays.

Eliminate washing of fine seed. Get better germination.

No more damping off. Faster and healthier plant growth. Fine for chemical feeding.

Neponset Flat Inserts prevent muddy water from dripping on blooming flowers from the racks above. Flats with inserts dry out uniformly.

Fine for potted plants. Use them as saucers for a dozen or more pots. Besides saving watering time, even moisture control is obtained as with seedlings and the drip problem removed.

Ask for detailed instructions in their use.

**Important**—Send **inside** dimensions of flats when ordering.  
100 of one size **5.00**; 25 of one size **2.50**; 25 each of 4 sizes **7.00**.

### A BAND FOR EVERY PURPOSE!

**VITA-BanD-A.** For all-around use, especially for long growing periods. Ideal for carnations . . . Treated with nutrients to assure vigorous, well-balanced growth. A heavy and sturdy plant band.

**VITA-BanD-B.** For growing periods up to 8 or 10 weeks. Same superior growing results as Vita-gro A bands. Designed and priced for shorter growing periods.

**GROWTEX.** Has the same quick set-up and fast handling features without nutrient treatment. A low-priced band giving satisfactory results for the shorter growing periods, up to 8 or 10 weeks. May require an occasional liquid feeding.

**NEPONSET Fibre Plant Bands.** Cemented Type. While they last. Fast set up. Stand up for long growing periods. May require a little more liquid feeding.

All the above plant bands are made of fibre-resin materials and are highly compatible to plant growth. Tested and proved under all growing conditions by successful greenhouse operators.

### NEPONSET WATERPROOF PAPER POTS

**Green Pots for Growing.** The bottoms are reinforced with a close fitting disc to prevent roots from growing in between sections of the base.
